This document details the Imaging Policy of Holy Trinity Church of England School Dobcross.

## **Definition**

Within the policy, the use of the words Image or Imaging refers to all types of photographic recording. This includes, for example: traditional photography, traditional 'cine' film footage, digital still photography and both analogue and digital video recordings. This list should not be considered as exhaustive.

## **Introduction**

Imaging in schools is now an integral part of the curriculum. It is impossible to deliver the full scope of the modern curriculum without the use of imaging. Imaging will take place within the school. This policy is designed to apply a 'common sense' approach to imaging in school, whilst meeting the needs of the school stakeholders and the legal requirements of the Data Protection Act (2018).

## **Scope**

This policy applies to imaging, which takes place on school property or during trips, visits and events that take place away from the school. It applies to both the pupils and staff of the school.

## **Uses of Imaging**

Images taken in school will be used primarily in direct support of the curriculum and for displays within the school. They may also be used in the following ways: in school promotional materials, such as the School Prospectus, for retention in the school archive, for use on the school website, for use by the Local Education Authority. This list is not intended to be exclusive.

These images may be stored in both electronic and physical formats.

Images will not be released for use outside the school without the permission of the Headteacher or their deputy.

## **Privacy**

In order to offer a degree of privacy, any subject within an image will not be identified. This will be achieved by the use of alphabetical lists of names and/or the use of initials not first names.

## **Dress code**

Images will only be taken when appropriate dress is being worn e.g. school uniform or sports kit. Images will not normally be taken at swimming events.

## **Media**

In the event of media (for example television or the newspapers) being invited to private school events this policy will still apply. It will not apply to public events.

## **School Photographs**

The policy will not apply to school photographs for both individuals and class groups as these images are owned by the person taking the images.

### **Photographs taken by families**

The school permits families and friends of the school to take images at school events. These photographs are considered for personal use. The school will make an announcement at the beginning of these events reminding the audience of this. Photographs of children, other than your own, must not be shared via social media sites or the internet. The school can withdraw the rights of parents to take photographs in school at any time.

### **Data Protection Act**

Some images will be governed by the scope of the current data protection legislation. Where this is the case, the school will comply with this legislation.

In order to meet the current requirements of The Data Protection Act, the school requires that all parents or guardians of pupils acknowledge that their child may be photographed in school; this applies to staff of the school.

This acknowledgment will be in the form of an individual letter at the start of the individual's school career.

### **Exemptions**

If a situation falls outside the scope of this policy, then the school will contact the subject, their parents or guardian to clarify the situation.

If a pupil, parent or guardian wishes to be excluded from this policy they should contact the Headteacher.

All parents/carers are asked to sign a letter of consent (appendix 1 and appendix 2) when their children enters school. Any changes to the permissions is the responsibility of the parent/carer to inform the school.

## APPENDIX 1

Dear Parent/Guardian

### TAKING AND USING IMAGES OF CHILDREN IN SCHOOL

During the school year we may take photographs of children in school or record them on video or webcam. Imaging has become an integral part of the school curriculum and greatly benefits the children's learning. However, in order to comply with the Data Protection Act (2018) and to behave responsibly towards our pupils, we need to inform you about our photographing or recording of your child for school purposes.

The circumstances in which we take photographs or make recordings in school and the ways we use them are as follows:-

- **Photographs: of class and related activities; used in school or LEA prospectus and on project display boards to promote the school and children's work.**
- **Video/Webcam recordings: of a wide range of class activities as an increasingly important part of the curriculum and as a training aid.**
- **School Website: photographs and recording, as above, used on the Website which we are currently developing to promote the school and widen communication between parents and school.**
- **Media: occasionally local newspapers or television teams may come into school to feature noteworthy events.**

We have drawn up the following conditions of use to comply with Data Protection legislation and to prevent misuse of any images of your child:-

- No use of personal details: **Children will not be identified in any digital photograph, video footage or web transmissions.**
- Names and photographs will not appear together in school printed material: **any photograph of an individual child will not be named in the accompanying text; where a child is named there will be no photograph included. Names will either be withheld or given in alphabetical order in newspaper photographs.**
- No individual identification in group images: **classroom photographs or footage will not name individual children and will have only a general descriptive label.**
- Dress: **photographs or recordings will only be used of children who are suitably dressed.**

There are two further points:-

- **The use of camera phones by anyone within school is forbidden under our mobile phones policy.**
- **We appreciate that parents themselves may want to photograph or video their children at school events, such as musical performances and Sports Day. These images are exempt from the Data Protection Act as long as they are for personal family use only. Parents are free to photograph or record these events for this purpose.**

If you are NOT agreeable to photographs or recordings of your child being taken and used as set out above please contact the Head Teacher, in writing, within the next 14 days.

## HOLY TRINITY DOBCROSS IMAGING POLICY SUMMER 2022

If we do not hear from you within that time we will take it that we have your permission to take and use images of your child, according to our conditions of use, throughout the period he or she attends this school.

WE NEED TO KNOW THAT YOU HAVE RECEIVED THIS LETTER SO PLEASE CAN YOU COMPLETE THE TEAR-OFF SLIP BELOW.

**Yours sincerely**
